

## New methods of genetic engineering: GENE-DRIVE-MOSQUITOS (TESTBIOTECH Background 17 - 9 - 2018 )

**Subtitle:** A possible future scenario

Testbiotech's work is based on exacting scientific standards. Nevertheless, in our video clip on 'gene drive mosquitos' we go beyond what can be considered to be scientific knowledge and present a possible future scenario. The clip uses 'scientific fiction' to narrate a well-known pattern: it starts with a mysterious incident in the year 2040 and goes on to tell the story.
