
Overview of genome editing applications using SDN-1 and SDN-2 in regard to EU regulatory issues

Subtitle: New methods of genetic engineering (genome editing) and their potential impact on nature protection and the environment

Publication year: 2020

File attachments: Attachment

Size

382.14 KB

[Overview of genome editing applications using SDN-1 and SDN-2 in regard to EU regulatory issues.pdf](#) [1]

Themen: [Synthetic biology and synthetic genome technologies](#) [2]
