## **Testbiotech comment on EFSA GMO Panel's Scientific Opinion on the assessment of genetically modified oilseed rape GT73 for renewal of authorisation under Regulation (EC) No 1829/2003 (application EFSA-GMO-RX-002) from Bayer/Monsanto**

**Subtitle:** TESTBIOTECH Background 30 - 8 - 2020

The genetically engineered, herbicide-tolerant (glyphosate) oilseed rape, GT73, produces two different enzymes that confer herbicide resistance (CP4 EPSPS and GOX proteins). The assessment for renewal of authorisation was carried out within the framework of EU Implementing Regulation 503/2013 (EFSA, 2020a).
